

BATTLE VALUE TABLES 3.0

The following tables include all FASA and FanPro-published battle armor, vehicles, ProtoMechs and BattleMechs. Variants of vehicles are listed in parentheses after the name of the vehicle; specific Clan names of 'Mechs appear in parentheses after the 'Mech.

Because FASA made necessary corrections to many BattleMechs and vehicles for the record sheet books published in 1996, the **Source** notations refer to the record sheet books rather than the *Technical Readouts* in which the 'Mechs, vehicles and battle armor originally appeared. Units that do not appear in a *Record Sheet* book, but have been published in various other *BattleTech* sourcebooks, such as the *Field Manual* series, are also included.

Any **Source** marked with an asterisk (*), can also be found in 3067.

This list includes any errata and so supercedes all previously published lists.
